Instructions for Electronic Prescribing

EFFECTIVE September 1, 2026

To ensure accurate prescribing and timely patient fulfillment, please follow the instructions below when electronically prescribing WartPEEL.

1. Select the Correct Pharmacy

When selecting the pharmacy in your ePrescribing system, search using the appropriate NCPDP number below and select the corresponding Medicap Compounding Center or Medicap Pharmacy location licensed in your patient's state.

Please note: There are ONLY four Medicap locations licensed to dispense WartPEEL, all located in Iowa.

Medicap Compounding Center - Coralville, Iowa**:** 1900 James St., Suite 10-B

- NCPDP: 1628102

Medicap Compounding Center – Waterloo, Iowa: 209 E. San Marnan Dr.

- NCPDP: 1628063

Medicap Pharmacy, Ames, Iowa: 3600 University Blvd. Suite 103

- NCPDP: 1628114

Medicap Pharmacy, Pleasant Hill, Iowa: 4927 Maple Dr

- NCPDP: 1628075

To identify the appropriate licensed pharmacy for your patient's state, visit:
WartPEEL.com → Prescribe Now → Pharmacy Locator → Select Your State

2. Drug Field

Select either component of WartPEEL® as the drug:

- 5-fluorouracil (5-FU)
- Salicylic Acid

Any dosage form is acceptable (cream, powder, etc.) for electronic prescribing purposes.

3. Sig or Comment Field

In the Sig or Comments field, enter: **"WartPEEL in Remedium"**

Important: The prescription must include the wording "WartPEEL in Remedium" to allow dispensing of the compounded product. **Remedium** is a patented sustained-release adhesive gel used exclusively by Medicap Compounding Center pharmacies.

4. Directions for Use (Sig)

Enter prescriber-specific directions or: "Use as directed per instruction sheet."

A standard two-page patient instruction sheet is provided with each prescription.

Please indicate the condition being treated:

- Common warts
- Genital warts
- Seborrheic keratosis (SK)
- Molluscum

Note: Occlusive tape is included only for common wart treatment and is not included for genital warts, seborrheic keratosis, or molluscum.

5. Quantity

5 grams is the standard quantity and is sufficient for most patients.

6. Patient Information

Please include complete patient demographics, including a current phone number, so our pharmacy team can contact the patient promptly regarding prescription fulfillment.
